## PROFILE

---

### Skills

- Front-End Development · Back-End Web Development · User Experience (UX) · NoSQL · SQL · React Native · Node.js · Wireframing · HTML5 · Cascading Style Sheets (CSS) · Laravel · PHP · React.js · JavaScript · Creative Coding · Databases · MongoDB

### About me

- 1:1 Software development student with a strong understanding of development principles, currently pursuing a job in software development.
- I have a good understanding of the skills mentioned above and I strengthen my knowledge continuously by doing projects using these skills.
- I am a hard worker that likes to use technology to help people and I am looking forward to starting my career so I can help others.

## EXPERIENCE

---

### IADT

Dublin, Ireland

- *Lead Developer / Research Assistant*

2023 - 2024

- Following our victory in the N-TUTORR competition, we've secured funding for a transformative project aimed at reimagining the student services offered on the Institute of Art, Design, and Technology (IADT) website.
- Created a React app that displays content from a content management system called Strapi. This is a progressive web app that uses best practices to help students access information easily. The app also connects to the Azure calendar API so students can make bookings for one of the student services. Implemented a search framework called Algolia which has useful features like natural language processing.
- **Skills:** Frontend Development · Backend Development · Internet Design · Research and Development (R&D) · Project Management

### Capella

Dublin, Ireland

- *Software Developer Intern*

2023 Jan – 2023 May

- Worked as part of the development team that works on Capella's Platform for Hybrid Working - Hot desk management software & hot desk scheduling | Capella ([capella-ws.com](https://capella-ws.com)) I worked on analysing, implementing, and maintaining features for the platform. Some of the technologies I used were React, Laravel, Docker. Etc
- **Skills:** Front-End Development · Back-End Web Development · Agile Methodologies · Database Management System (DBMS)

### Sports Direct

Dublin, Ireland

- *Sales Assistant*

2019 - 2023

- I was required to offer quick and reliable service to customers while cleaning the shop floor throughout the day. I remained calm in a fast-paced store and assist my fellow colleagues

serve customers. I also processed footwear deliveries and I would operate stockrooms where I regularly rearrange stock to keep it safe and easily accessible for fellow colleagues.

- **Skills:** Teamwork · Sales · Time Management · Communication

## EDUCATION

---

### Institute of Art Design and Technology (IADT)

Dublin, Ireland

2020-2024

- BSc (Hons) Computing
  - Currently maintaining a 3.6 GPA
  - **Modules:** Web Development | Integrated Project | Databases | Object-oriented Programming | Interaction Design | Creative Coding | User Experience Design Software Project | Cloud Computing | Front-End Development | Back-End Development | Professional Practice & Placement | Business & Entrepreneurship | Emerging Technologies & Trends Research & Analytic | Advanced JavaScript | Artificial Intelligence
  - My college course has taught me how to create and problem solve using code and critical thinking. The course has also taught me how to make engaging user experiences through powerful and accessible interfaces.
