## EXPERIENCE

---

### IADT

Dublin, Ireland

- *Software Developer / Research Assistant*

2023 - 2024

- Spearheaded a groundbreaking initiative post-N-TUTORR competition victory, securing funding for a transformative project focused on enhancing student services through the IADT website.
- Developed a cutting-edge React application integrated with Strapi CMS to optimize content delivery, ensuring seamless accessibility for students.
- Engineered a progressive web app adhering to industry best practices, facilitating intuitive information retrieval.
- Implemented Algolia search framework, leveraging natural language processing for enhanced search functionality.
- **Skills:** Frontend Development · Backend Development · Internet Design · Research and Development (R&D) · Project Management

### Capella

Dublin, Ireland

- *Software Developer Intern*

2023 Jan – 2023 May

- Played a pivotal role within the development team focused on Capella's Platform for Hybrid Working, specializing in hot desk management software, and scheduling.
- Leveraged React, Laravel, Docker and AWS to analyze, implement, and maintain features for the platform and create internal tools, ensuring seamless functionality and optimal user experience.
- Developed and maintained the existing testing framework using Cypress, contributing to the platform's stability and reliability.
- Embraced a dynamic work environment, demonstrating dependability, coachability, and enthusiasm for contributing to a growing company.
- Engaged in all facets of the business, fostering continuous learning and skill development opportunities.
- **Skills:** Front-End Development · Back-End Web Development · Agile Methodologies · Database Management System (DBMS)

### Sports Direct

Dublin, Ireland

- *Sales Assistant*

2019 - 2023

- I was required to offer quick and reliable service to customers while cleaning the shop floor throughout the day. I remained calm in a fast-paced store and assisted my colleagues serve

customers. I also processed footwear deliveries and I would operate stockrooms where I regularly rearrange stock to keep it safe and easily accessible for colleagues.

- **Skills:** Teamwork · Sales · Time Management · Communication

## EDUCATION

---

### Institute of Art Design and Technology (IADT)

Dublin, Ireland

2020-2024

- BSc (Hons) Computing
  - Expected 1:1 final grade.
  - Engaged in a comprehensive BSc (Hons) Computing program at IADT, fostering a deep understanding of various aspects of computing and technology.
  - Developed proficiency in a range of subjects including web development, databases, object-oriented programming, interaction design, and user experience design.
  - Acquired firsthand experience in software project management, cloud computing, and emerging technologies, enabling me to adapt to the rapidly evolving tech landscape.
  - Cultivated critical thinking and critical thinking skills, honing my ability to tackle complex challenges and develop innovative solutions.
  - Applied theoretical knowledge to real-world scenarios through professional practice and placement opportunities, gaining invaluable industry insights.
  - Specialized coursework in advanced JavaScript and artificial intelligence deepened my expertise in innovative technologies.
  - Throughout the course, I focused on creating engaging user experiences, mastering the art of crafting powerful and accessible interfaces to meet user needs effectively.
